Subject: NIEHS Presentation for Research Triangle Env. Collaborative on Health Impacts of Hydrofracking
 RTI Fracking NIEHS Activities VSep27.pptx

All:

As I mentioned yesterday, I will be giving a talk on the status of our tri-agency effort at an environmental health symposium in North Carolina next week. My presentation is essentially the same as the one we gave at the three stakeholder meetings. The only changes are the subsequent revisions we made to the titles of our research areas.

At the same forum, Aubrey Miller of NIEHS has been asked to talk about HHS activities related to hydraulic fracturing. His presentation is attached below for your information. Note: I provided Aubrey with the notes from the meeting of health agencies that Glenn called to assist Aubrey in preparing his presentation.

Thanks.

Kevin
